Have you ever felt that you had a greater calling, but never been able to put your finger on what it is? In the *Secrets of Synchronicity*, workshops, Dr Marcus T. Anthony will show that you have the incredible capacity to draw upon an infinite source of knowledge and wisdom, and use it to identify and live your true calling, or "Bliss". Based on Marcus' latest book *Sage of Synchronicity*, this workshop will teach you how to tap into the power of your spiritual intuition, or what Marcus calls Integrated Intelligence (INI). Other vital skills and information you will learn include:

- What synchronicity is, and how to tap into it to create the life you want.
- How to use the Integrated Intelligence Tools, enabling you to listen to your soul and activate your psychic potential.
- What your Soul Template is, and why you need it to live your Bliss.
- How to find your calling by following your excitement, and how to stay on purpose once you know what it is.
- How to stand in your true power as a man or woman.
- The real secret about manifestation, one the New Age won't tell you.
- How spiritual seekers unconsciously sabotage their Bliss, and how you can avoid this trap.

*The Secrets of Synchronicity* workshop promises to be profound, exciting, and enjoyable experience for anyone seeking to create the life they were meant to live.

### **About Marcus T. Anthony**

Beginning from the mid 1990s, Marcus began to explore visionary worlds through contemplation, deep meditation, and emotional healing. He traveled to many parts of the world, seeking the wisdom and guidance of gifted spiritual teachers. While living in New Zealand from 1996-1999, he engaged in an intensive programme of spiritual exploration with a group of committed spiritual seekers. By the time he had left New Zealand for Taiwan, he had developed an ability to perceive and understand human consciousness at an extraordinarily deep level. This included the capacity to sense the thoughts and emotional energies of others, and to communicate with spiritual realms. Subsequently, he set about formally studying the frontiers of human intelligence, enrolling in a doctoral programme at the University of the Sunshine Coast in Queensland, Australia.

In recent years Marcus has become a prolific writer. He has published the academic book *Integrated Intelligence* (Sense Publishers, 2008), the more layman-friendly *Sage of Synchronicity*, scores of academic articles, and numerous internet features.

Marcus is the Director of Benjamin Franklin Press Asia ([www.eastwestfutures.com](http://www.eastwestfutures.com)), a publishing company specialising in books and media related to Futures Studies. Its mission is to introduce to Asia the significant works of leading futurists. In particular, the focus is to bring greater balance to discussions, analyses and visions of the future; broadening financial and technologically-dominated discourses with a consideration for deeper philosophical, psychological, and spiritual perspectives.

Anthony is an elected member of the World Futures Studies Federation, and the Darwin Project Council - a think-tank comprising many leading futurists, academics, philosophers and scientists, including triune brain theorist Paul Maclean, psychologist Mihalyi Csikszentmihalyi, systems theorist Ervin Laszlo, and feminist Rianne Eisler. He has lived and worked in East Asia for a decade.

### **Futures with depth**

*"The heart of the future is not a flying car  
or  
a faster internet , but the soul of humanity."
